

Cookie Policy

Cookies are a textual element (file) that is inserted into the hard disk of a computer only after authorization (as set on the browser in use). Cookies are used to streamline the analysis of web traffic or to indicate when a specific site is visited and allow web applications to send information to individual Users. No personal user data is acquired by the site in this regard.

We do not use cookies to transmit information of a personal nature and to track users.

The use of Session cookies is strictly limited to the transmission of session identifiers (consisting of random numbers generated by the server) necessary to allow a safe and efficient exploration of the site. The Session cookies used on the site avoid the use of other computer techniques that are potentially detrimental to the confidentiality of users' browsing and do not allow the acquisition of personal identification data of users.

Third-party cookies are present on the main, ie cookies not developed for the site but coming from external applications, specifically from YouTube or Google Maps; used only for embed operations of videos and / or maps directly on the site, in addition to a future implementation of tools such as Google Analytics which involves the presence of tracking cookies (location, type of browser used, origin) owned by Google, of which an information can be found at the following links:
